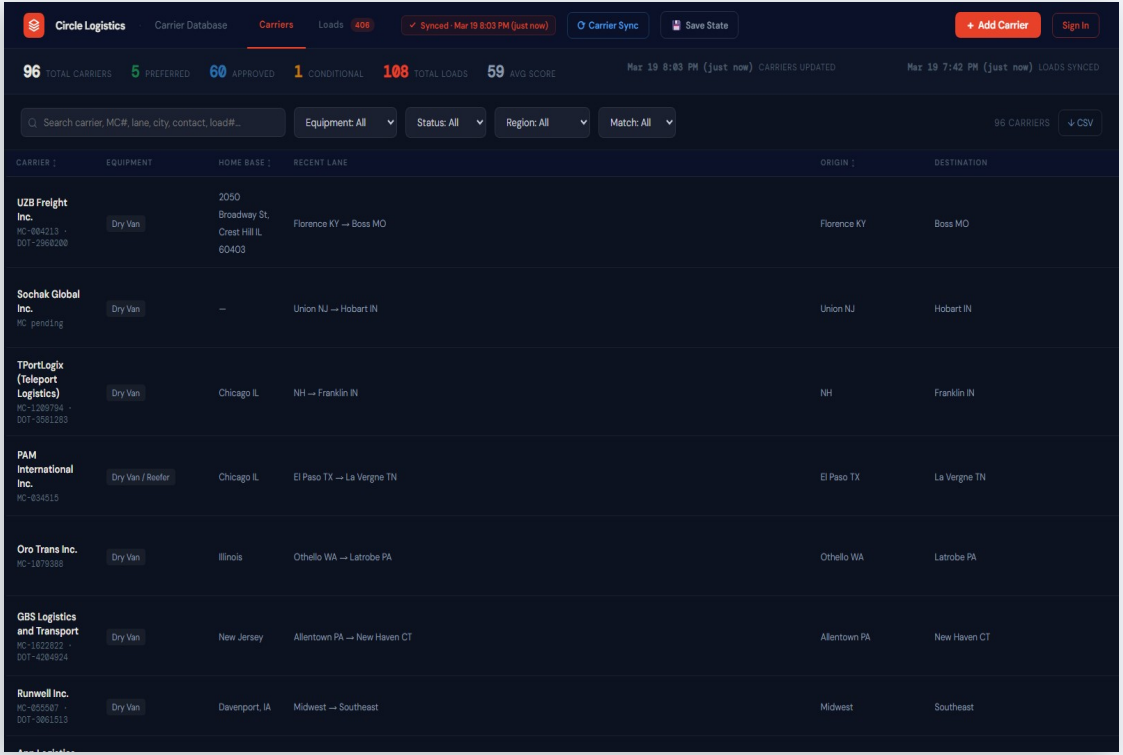
carrierdatabasev2.netlify.app

OVERVIEW

# What Is the Carrier Database?



### 📋 Central Carrier Hub

All 96 carriers in one searchable, filterable list — MC#, DOT, equipment, lanes, and performance.

### 🔄 Live & Always Synced

Carriers and loads update in real time. Any team member sees the same data instantly.

### 🔍 Powerful Search & Filters

Search by name, MC#, city, lane, or dispatcher. Filter by equipment, status, and region.

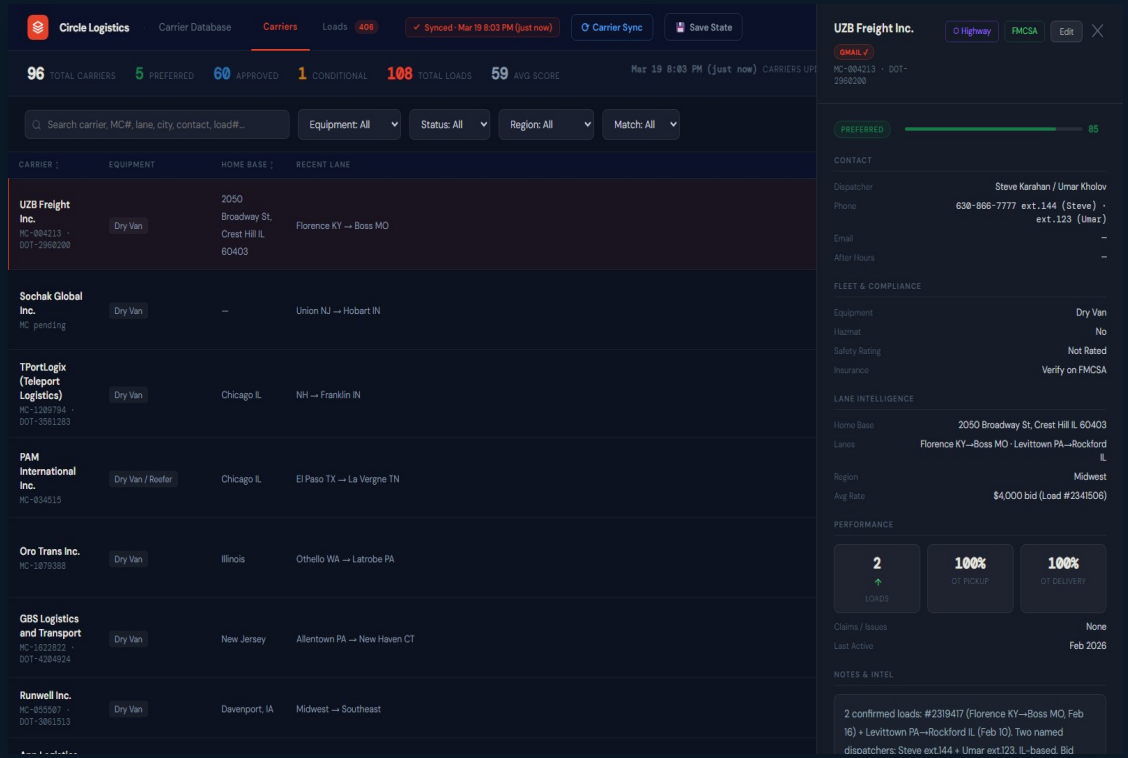
### 📊 Performance Scoring

Every carrier has a 0–100 reliability score based on on-time pickup, delivery, and claims history.

Access: carrierdatabasev2.netlify.app · Sign in with your @circledelivers.com Google account

CARRIER PROFILES

# Click Any Carrier — See Everything



### Status Badge

Preferred, Active, Conditional, or Do Not Use — color-coded at a glance.

### Fleet & Compliance

Equipment type, hazmat cert, FMCSA safety rating, and insurance.

### Reliability Score

0–100 score with visual bar. Green = trusted, amber = watch list.

### Lane Intelligence

Home base, preferred lanes, region, and historical rate anchor.

### Dispatcher Contacts

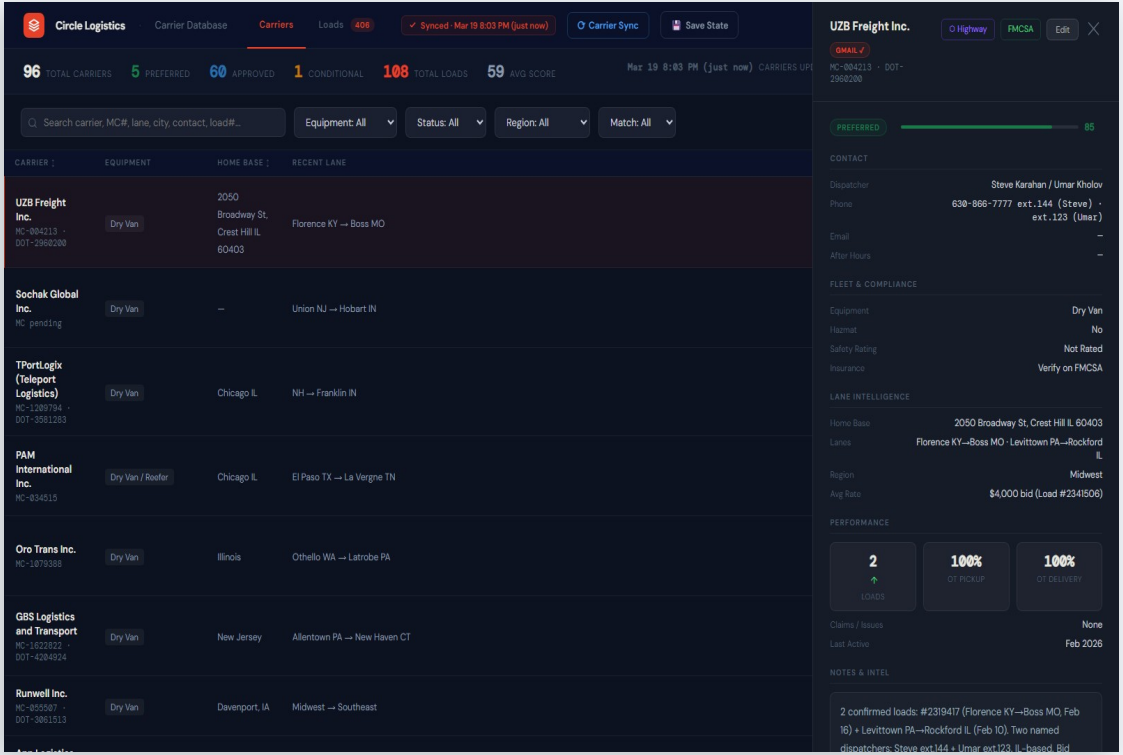
Names, direct extensions, email, and after-hours numbers.

### Performance Stats

Loads run, on-time pickup %, on-time delivery %, and claims.

Highway · FMCSA · Edit buttons are available in every carrier profile header

# Notes, Call Prep & Load History



### Editable Notes

Click any note field and type — saves automatically on blur. No button to press.

### Call Prep Talking Points

Auto-generated from real data: last active date, rate anchor, score tier, and relationship cues.

### Load History

Every load this carrier has run with Circle — route, date, and outcome status.

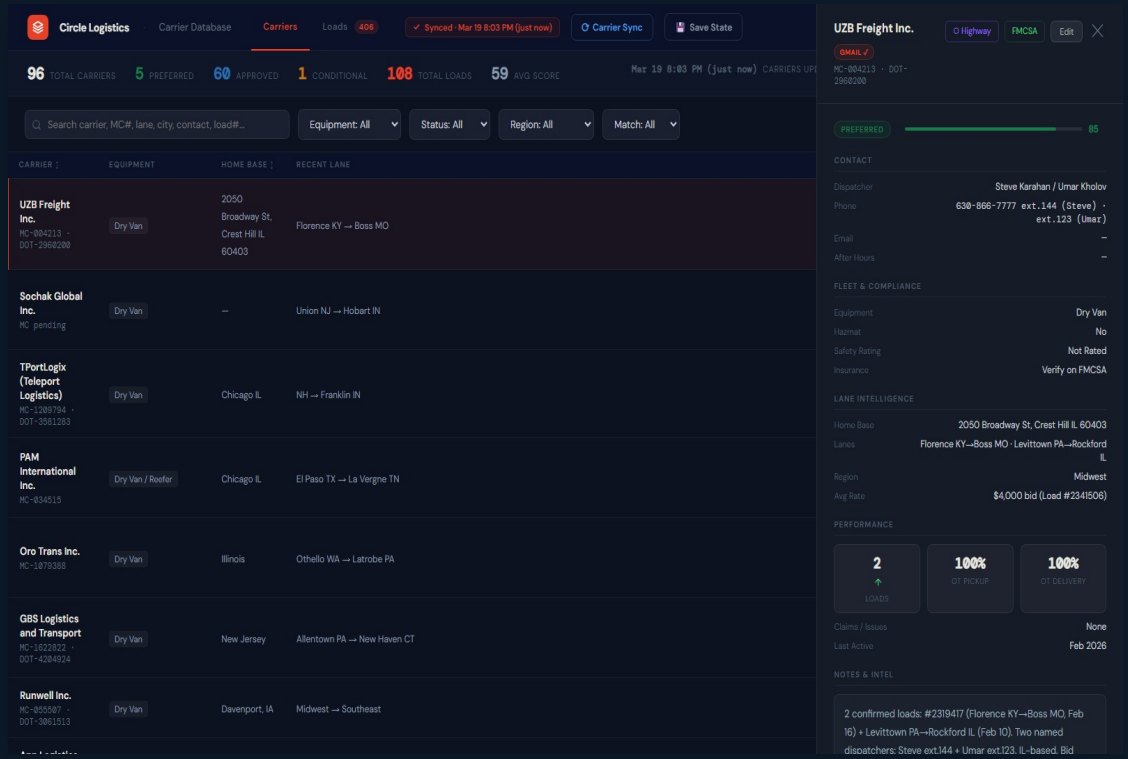
### Data Source Audit

Shows exactly where data came from: Gmail rate confirmations, Book Now emails, or manual entry.

All profile changes sync instantly across every logged-in team member.

SMART MATCHING

# Smart Load Matching — Inside Every Carrier Profile



## How Matching Works

**1 Lane Alignment**

Compares carrier's origin/destination states against every open load.

**2 Equipment Match**

Only shows loads the carrier can actually run (Van, Reefer, Flatbed, etc.).

**3 Score Ranking**

Results sorted by reliability score — most trusted carriers surface first.

**4 Strong vs. Possible**

Strong Match = same state pair hauled before. Possible = adjacent lanes.

Matched loads link into carrier load history when their status is updated

GMAIL SYNC · TEAM LOGIN

# Automatic Carrier Data from Your Inbox

## How Carrier Sync Works

1. **"Book Now Dispatch" Emails**

   Scans TMS emails for every new carrier booking — route, dispatcher, phone, lane, pickup/delivery.

2. **Rate Confirmation Threads**

   Cross-references MC numbers and carrier contact details from rate confirmation emails.

3. **Auto-Creates Carrier Profiles**

   New carriers appear automatically. Existing carriers are updated with fresh lane data.

4. **Press "Carrier Sync" Anytime**

   Hit the blue "Carrier Sync" button to manually trigger a fresh scan of all connected inboxes.

## Team Login — Google SSO

**Sign In with Google**

Click "Sign In" in the top bar. Use your @circledelivers.com or @circlelogistics.com account.

**Connect Your Gmail**

Once signed in, your Gmail is connected. The next Carrier Sync scans your inbox too.

**See Who's Connected**

Click your avatar → "Gmail Users" to see all connected team members and their last sync time.

**Admin Notifications**

Conrad gets an email when anyone signs in or a sync runs — with a full results summary.

QUICK START

# How to Use the Carrier Database

## Find a Carrier

1. Go to the Carriers tab
2. Search by name, MC#, city, or lane
3. Filter by equipment, status, or region
4. Click any row to open the full profile

## Work a Load

1. Click the Loads tab (406 available)
2. Filter by equipment, date, or hazmat
3. Click a load row to open details
4. Scroll — carrier matches appear below

## Add a New Carrier

1. Click "+ Add Carrier" in the top bar
2. Fill in MC#, contact, equipment, lanes
3. Save — visible to all team members
4. Run Carrier Sync to fill data from Gmail

## Verify Carrier Safety

1. Open any carrier profile
2. Click "Highway" — vetting dashboard opens
3. Click "FMCSA" — check DOT safety record
4. Update status: Active, Preferred, or DNU
